

IMPORTANT MESSAGE: The Town of Cramerton is still performing Curbside Recycling. Please DISREGARD Information Leaflet Received in Water/Sewer Bill

The Town of Cramerton continues to have a curbside recycling program! It is performed on an every other week basis.

In this month's water/sewer utility bill, Cramerton residents mistakenly received an information leaflet notifying the end of curbside recycling. This notice DOES NOT APPLY TO CRAMERTON residents. This notice is intended for CITY OF GASTONIA RESIDENTS ONLY. This City of Gastonia is discontinuing its curbside recycling program, Cramerton is not.

The reason this recycling message error occurred is Cramerton residents are water/sewer customers of Two Rivers Utilities (TRU), which is a department of the City of Gastonia. However, Cramerton has its own curbside recycling program that is completely separate from the City of Gastonia.

The City of Gastonia has reached out to Cramerton and would like to sincerely apologize for any confusion that this has caused. For any water/sewer related needs, please contact Two Rivers Utilities customer service hotline at 704-866-6843.

We encourage all Cramerton residents to continue to "Recycle Right" by putting only appropriate materials in your recycling bin (see the information picture below). This keeps contamination levels low and allows our Town to have a robust recycling program!

Thank you and everyone have a good evening.
